

Free Distribution Program for WAISserver 10 Meg Software

Draft 2.0

Objective

WAIS Inc. desires to set up a highly automated method to distribute a version of the commercial WAISserver product that is limited to searching databases of less than 10 megs of text. The limited version distribution is intended to allow widespread adoption of the WAIS Inc technology and increase WAISserver sales while reducing the support burden of those sales.

In addition, valuable information about customer preferences and intentions will be captured for sales and marketing purposes. Users of the free servers may subscribe to an email users group alias, will have access to online documentation, and will be able to upgrade to full WAISserver licenses at an aggressively discounted price.

Elements of the service

A distribution system from the WAIS Inc. home pages will be developed that requires:

- user registration with email verification
- acceptance of the appropriate license agreement
- access to a restricted area for online documentation, binary downloads
- automated distribution of configuration file tied to users IP number

Registered users will become part of a users group and will subscribe to a monitored email list where they can help each other use WAISserver10. Also, in conjunction with this program, users have the option to register their database in the directory-of-servers and/or on a listing of WAIS-powered web sites.

Registration:

Users will fill out a form specifying their contact information, intended uses of the server, the option of subscribing to the users group email list, and

acceptance of the terms of the distribution license. The elements of the form will closely resemble the form now in place at Kaleida Labs. The distribution license will restrict usage to a single computer CPU (with hot backup), and with no redistribution or additional rights to copy the software.

System Requirements, installation instructions, and upgrade options will be provided in the form.

When a user submits their completed form, the system will check their form for completeness and appropriate syntax, and an email message will be automatically sent to them that directs them to the restricted URL of the distribution server.

Their email address will be automatically added to the user group email list unless the user specifically declines this option, in which case they are only able to use documentation for support. Their email address will also be added to the registration database of the distribution server.

Their IP number will be added to the registration database and retrieved for confirmation purposes for auto-creation of their configuration file and for confirming their configuration file at the time of download.

Distribution Server

The front page of the distribution URL will require the user to provide their email address for access to other pages in the server system. Once accepted into the service, the user may access online documentation, may pick from a pull down menu of supported configurations to download binary server files, and may access information for purchasing an upgrade to WAISserver.

The WAISserver free version will be limited to only searching databases of <10 megs, but will be able to create indexes of unlimited size (for evaluation purposes). Documentation alerting users to the appropriate use (what to do when they can't search databases that are oversize, etc.) will be provided.

Estimated file sizes of each downloadable binary file will be displayed to user so they can estimate download time and assure that they have sufficient space to load the file. Users will be able to download the files, unpack and install them to their server, and begin operations without direct WAIS Inc. support.

Along with the binary files will be the configuration file that contains the IP number submitted in the registration process. The user will be presented with a verification screen prior to download. If the IP number or their

machine information is inaccurate, they will be able to edit the information contained in the registration database in order to obtain a correct configuration file.

Potential customers for other versions of WAISserver will be directed to the free distribution service as a mechanism to evaluate WAISserver prior to purchase, because participating in the free distribution program allows them a discount on an upgrade.

Upgrade Option

When a registered user of the free version of WAISserver wishes to upgrade to a full version, they can prepare a purchase order for the upgrade price by accessing upgrade information from the restricted area in the distribution server. A WAIS Inc. sales representative can then call the user and process the purchase order, confirm the IP number of the machine being licensed, and authorize the appropriate server download.

Registered users of the free distribution software may also have the option to apply for a 30-day evaluation of the full version of WAISserver without losing their upgrade discount privileges. Full technical support will be available to those users who purchase the full evaluation or upgrade options.

Assumptions

Registered users of the free distribution will not be allowed to call in to WAIS Inc. for technical support. All support will be through the users group and online documentation. The users group program can be expanded beyond email to include bulletin boards and other mechanisms. This users group might become a valuable audience for early release of new modules and server features from WAIS Inc.

A method of enforcing the WAIS Inc. support restrictions will be needed. If our direct support phone numbers or email addresses become known to users who are not either paying customers or evaluators, the volume of calls could bring technical support for our qualified customers to a grinding halt.

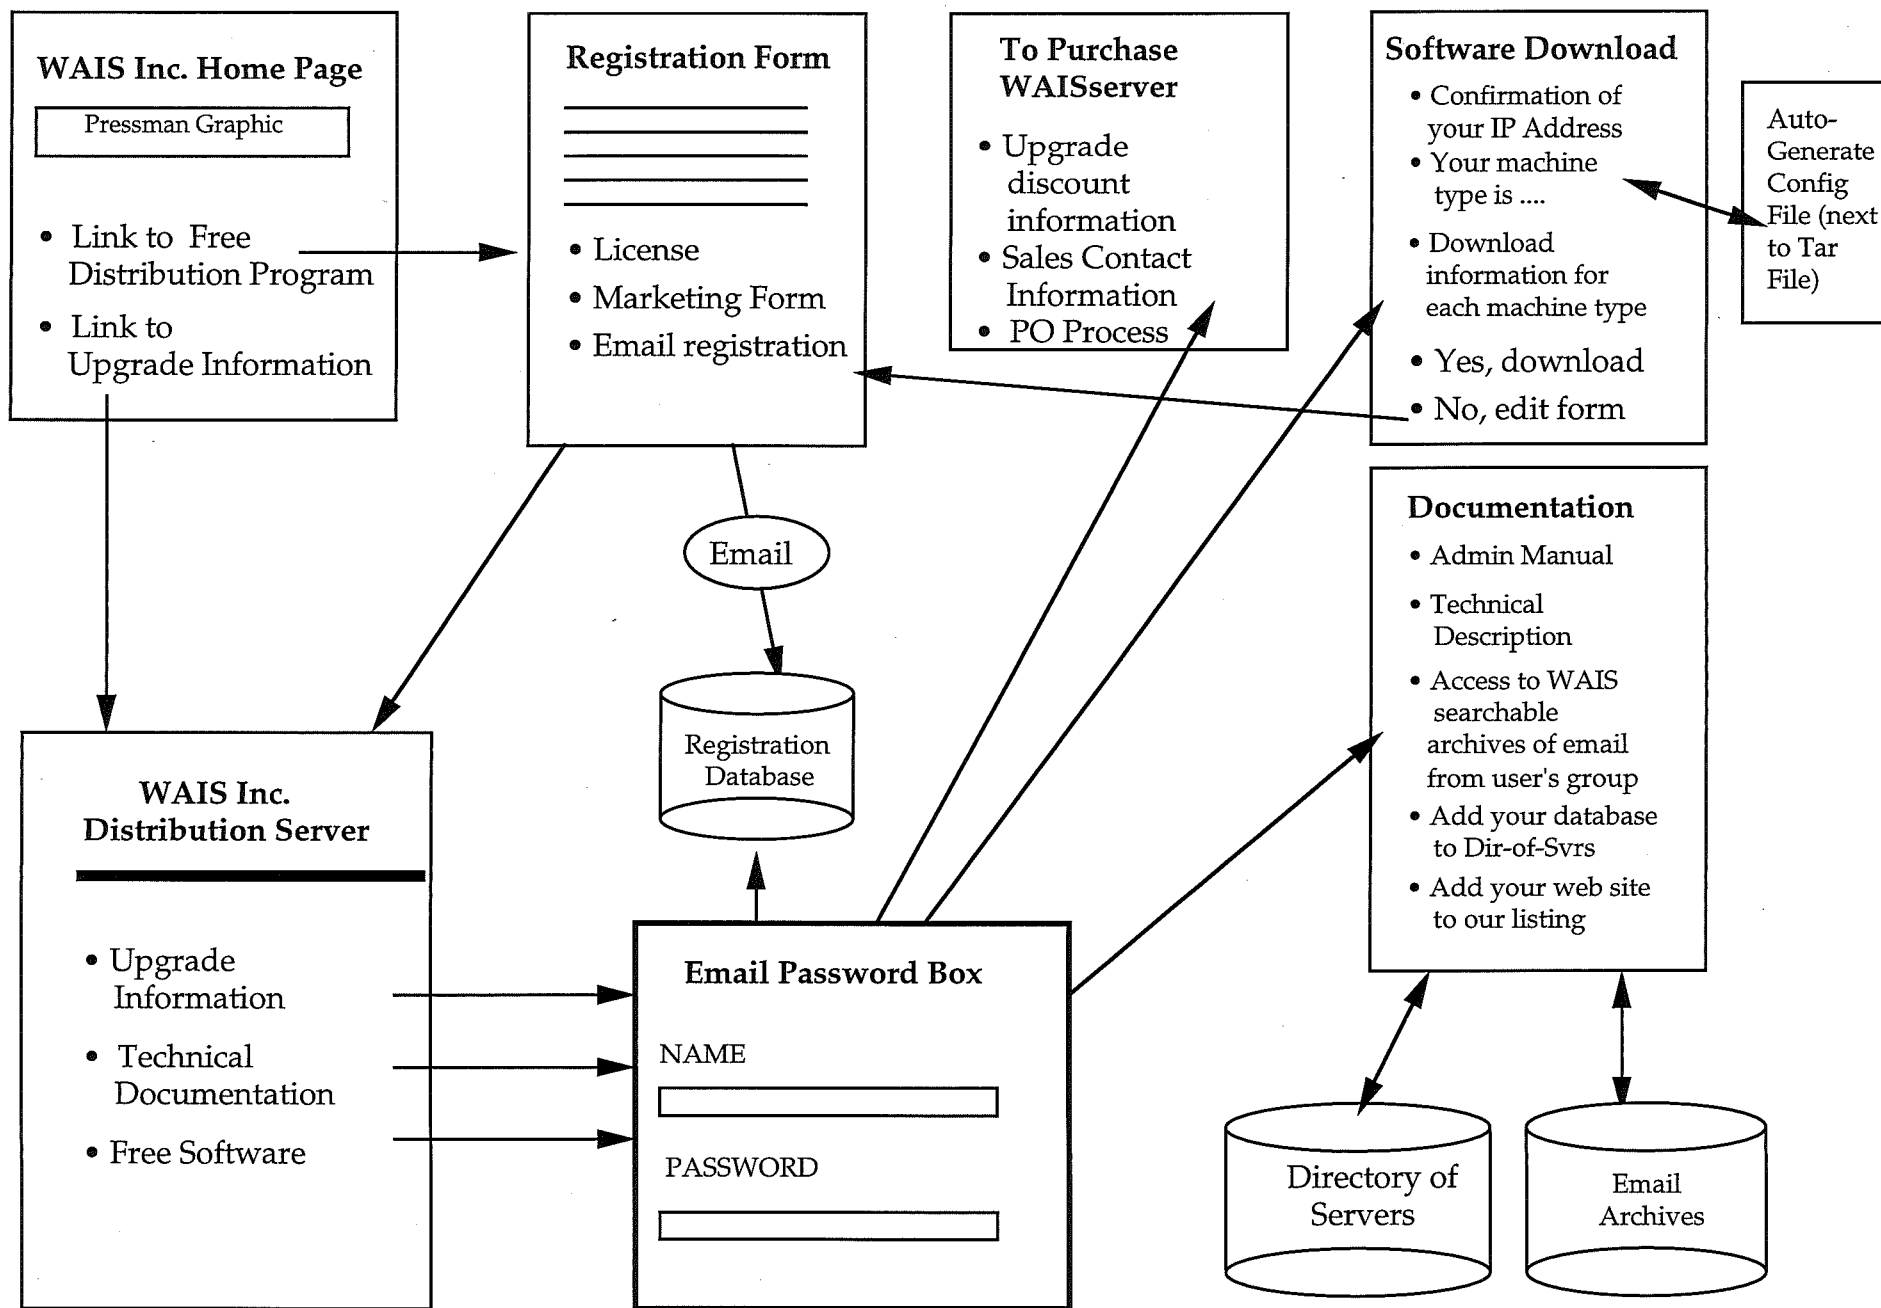

In parallel, the support@wais.com email address will be set to accept only email from qualified evaluation sites and paying customers.

Tasks

- Creation of HTML form, registration, license, etc.

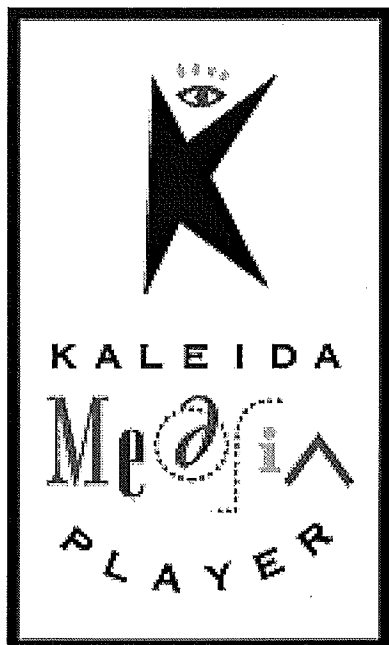

- Specification and implementation
- Syntax checking of submitted form data
 - Specification and implementation
- Creating and maintaining a database of user information
 - Specification and implementation
- Automatic email confirmation system
 - Addition of confirmed user name to restricted access list for distribution server
- Creation of distribution server
 - Restricted access for binary downloads, technical documentation, and upgrade information
 - Confirmation of user IP number prior to download
 - Auto-creation of configuration file for inclusion with download
 - Specification and implementation
- Creation of users group email list
 - Archive database of users group email list to be searchable from restricted HTML pages
 - Specification and implementation
- Creation of an HTML site which allows users to register both their WAIS-powered web site and a way to register their WAIS databases on the Directory-of-Servers
- Completion of software and update technical documentation
 - Restrictions on current software
 - Porting to all supported versions
 - Update technical documentation
 - Loading software on to distribution server
- Engage production services for development of registration and distribution services
 - Build specification and mockup for service
 - Produce the service
 - Update Directory-of-Servers mechanism
 - Create mechanism for alpha listing of WAIS-powered web sites
- Engage operations in setup of machines and database maintenance procedures

Sample Software Distribution Forms from the Web

- **Kaleida Labs**
- **Netscape
Communications**

Obtaining the KMP

This page contains information on obtaining, installing, and using the Web-accessible Kaleida Media Player 1.0 ("KMP") free of charge.

The KMP you will receive is that provided to developers in Kaleida's ScriptX Language Kit V 1.0. Please note that very little documentation and no technical support are included with this free Web-accessible KMP.

To obtain and use your free copy of the KMP you must simply read and agree to the terms of the boiler-plate license agreement drafted by our neurotic lawyers and fill-out a brief questionnaire. Do not worry -- the answers to your questions will be used by Kaleida to better serve our users. We do not intend to sell our data base to Arizona real estate promoters.

As the license agreement states, the KMP you download is provided only for your own use. If your friends or customers want copies, please point them to this Kaleida Web page -- please do not mirror the KMP download! If you have a great idea (or better yet a real product) that motivates you to distribute copies of the KMP to others, you should contact our friendly Kaleida customer support people who will help you get a KMP distribution license.

Your free license to use the accompanying copy of the KMP is indefinite--you may use this copy of the Kaleida Media Player forever without paying a dime for it. Kaleida may charge for future versions of the Kaleida Media Player, but this copy is provided to you on the house, free of charge forever. Such a deal!

Using the KMP

Once you have your copy of the KMP, set it up as a helper application for your Web browser, and you can start trying out our Web-distributed examples of cross-platform multimedia titles.

Note that the KMP is only for playback of ScriptX multimedia applications. To develop such applications, you need the ScriptX Language Kit. If you buy the ScriptX Language Kit and want to write cross-platform freeware and shareware, we encourage you to do so, and to point your users to the KMP distribution at this site.

System Requirements

The Kaleida Media Player minimum requirements are:

- For Windows
- For Macintosh

We support a wide range of PC configurations.

Installation Instructions

For the Macintosh, we provide a self-extracting archive in BinHex format. The archive contains the KMP executable, anim.sxl (the ScriptX Animation class library), the license agreement, and a "Read Me" file with a few technical notes. You should be able to begin using the KMP executable right away.

For Windows 3.1, we provide an archive in ZIP format. You should create a KMPDIR directory to hold the archive before unpacking it. The archive contains the KMP.EXE executable, KMP.SYM, SCRIPTX.DLL, ANIM.SXL (the ScriptX Animation class library), the license agreement, WEMU387.386 (for PCs with no floating-point unit), and a README.TXT file with a few technical notes. Keep the DLL, SYM, and SXL files in the same directory as the KMP.

Although the KMP is a standalone application, for ease of management we suggest keeping it and other ScriptX-related files in a special ScriptX-dedicated directory. You may want to add another ScriptX library container file, for example, or add loadable extensions which will require a local subdirectory.

Kaleida Labs Electronic End User License Agreement

NOTICE TO USER:

THIS IS A CONTRACT. BY INSTALLING THE ACCOMPANYING COPY OF THE KALEIDA MEDIA PLAYER YOU ACCEPT ALL TERMS AND CONDITIONS OF THIS AGREEMENT.

This Kaleida Labs, Inc. ("Kaleida") End User License Agreement accompanies a copy of the Kaleida Media Player ("KMP") and related explanatory written materials. The term "Software" in this agreement shall refer to the KMP, the related explanatory materials and any upgrades, modified versions or updates of the KMP licensed to you by Kaleida. This copy of the Software is licensed to you as an end user only. **PLEASE READ THIS AGREEMENT CAREFULLY.**

Kaleida grants to you a nonexclusive license to use the Software, provided that you agree to the following:

1. Use of the Software.

- *You may* install and use the Software on a single computer, and *you may* make one backup copy of the Software provided that your backup copy is not installed on any computer. If a version of the Software is permanently installed on a hard disk or other storage device on a computer and you are the primary user of that computer, *you may also* install and use that version of the Software on a portable or home computer provided that the same version of the software is never used by more than one person at the same time.
- *You may not* copy or use the Software except as stated in this Agreement. *You may not* make or distribute copies of the Software, or electronically transfer your version of the Software from your computer to another over a network. *You may not* modify, adapt, translate, reverse engineer, decompile, disassemble, or otherwise reduce the Software to human-perceivable form or permit others to do so. *You may not* rent, lease, sublicense or transfer the Software unless you transfer the Software to someone who agrees in writing to be bound by this Agreement.

2. Copyright. The Software is owned by Kaleida and its suppliers, and its structure, organization and code are the valuable trade secrets of Kaleida and its suppliers. The Software is also protected by United States Copyright Law and International Treaty provisions. You must treat the Software just as you would any other copyrighted material, such as a book or motion picture, meaning that you may not copy the Software in whole or in part except as allowed expressly in the "Use of the Software" section of this Agreement.

3. Use of the ScriptX Language and Class Library. The ScriptX Language and Class Library ("ScriptX") embodied in the Software is a copyrighted work of Kaleida. ScriptX also contains technology described in pending U.S. patent applications. You may use and copy ScriptX solely for

the purpose of creating software products that run on the Kaleida Media Player by writing computer source code that is compiled into object code by the ScriptX Language Kit. You may not use or copy ScriptX for the purpose of writing computer source code that is compiled into object code or otherwise executed with software supplied by any other provider who has not been expressly licensed for that purpose by Kaleida.

4. **Trademarks.** "ScriptX", the "K man" logo, "Kaleida Media Player", "ScriptX Language Kit" and "Kaleida" are trademarks of Kaleida Labs, Inc. Kaleida's trademarks may be used only to identify Kaleida's products. The use of any Kaleida trademark does not confer any ownership interest in that mark.
5. **Transfer.** You may not rent, lease, or sublicense the Software. You may, however, transfer all of your rights to use the Software to another person or entity, provided that you transfer this Agreement with the Software.
6. **Disclaimer of Warranties.** The Software is being delivered to you AS IS and Kaleida makes no warranty as to its use or performance. KALEIDA AND ITS SUPPLIERS DO NOT AND CANNOT WARRANT THE PERFORMANCE OR RESULTS YOU MAY OBTAIN BY USING THE SOFTWARE. KALEIDA AND ITS SUPPLIERS MAKE NO WARRANTIES, EXPRESS OR IMPLIED, AS TO NONINFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE.
7. **Limitation of Liability.** IN NO EVENT WILL KALEIDA OR ITS SUPPLIERS BE LIABLE TO YOU FOR ANY CLAIM BY ANY THIRD PARTY OR FOR ANY CONSEQUENTIAL, INCIDENTAL OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR LOST SAVINGS, EVEN IF A KALEIDA REPRESENTATIVE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some states or jurisdictions do not allow the exclusion or limitation of incidental, consequential or special damages, or the exclusion of implied warranties or limitations on how long an implied warranty may last, so the above limitations may not apply to you.
8. **Governing Law and General Provisions.** This Agreement will be governed by the laws of the State of California, U.S.A., excluding the application of its conflicts of law rules. This Agreement will not be governed by the United Nations Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded. If any part of this Agreement is found void and unenforceable, it will not affect the validity of the balance of the Agreement, which shall remain valid and enforceable according to its terms. You agree that the Software will not be shipped, transferred or exported into any country or used in any manner prohibited by the United States Export Administration Act or any other export laws, restrictions or regulations. This Agreement shall automatically terminate upon failure by you to comply with its terms. This Agreement may only be modified in writing signed by an authorized officer of Kaleida.
9. **Notice to Government End Users.** If this product is acquired under the terms of a: (i) GSA contract- Use, reproduction or disclosure is subject to the restrictions set forth in the applicable ADP Schedule contract; or (ii) DoD contract- Use, duplication or disclosure by the Government is subject to restrictions as set forth in subparagraph (c) (1) (ii) of 252.227-7013; or (iii) Civilian agency contract- Use, reproduction, or disclosure is subject to 52.227-19 (a) through (d) and restrictions set forth in the accompanying end user agreement.

Unpublished-rights reserved under the copyright laws of the United States. Kaleida Labs, Inc., 1055 B Joaquin Road, Mountain View, California 94043. Copyright 1983 - 1995 Kaleida Labs, Inc. All rights reserved.

KMP Download Questionnaire

Before you download the KMP, we request that you fill out the following questionnaire, particularly the fields whose names are emphasized. This information will help Kaleida Labs understand the development plans and needs of our users.

The download occurs in a fashion determined by your browser's handling of archive file types. For example, Netscape Navigator on the Macintosh is often set up to automatically expand BinHex files into Netscape's "Temporary" folder -- the System folder, by default -- and so that's where you'd find the downloaded KMP archive.

UNLIMITED MILEAGE

Welcome to the Netscape Server Test Drive Program, designed to give businesses a chance to experience Netscape's powerful server software products. We encourage users to read detailed specs about the [Netscape Communications Server](#) and [Netscape Commerce Server](#) before making their evaluation decision.

This isn't a beta. This isn't a demo. This is real shipping server software.

The Server Test Drive Program gives users the opportunity to evaluate Netscape Server software under real-world business conditions. Please note the following program guidelines:

- Users are entitled to use the software free of charge for 60 days; after that they will need to purchase the commercial product or discontinue use.
- The Server Test Drive is now enhanced for the enterprise, with **improved access for users behind a firewall.**
- Users must comply with the terms of the Netscape Server Test Drive [Licensing Agreement](#).
- Users must complete the registration form to be eligible to download the software.
- Users agree to be self-supporting through the Server Test Drive and Server Applications newsgroups and online help resources available in Netscape Server Central.
- Commerce Server users must purchase a signed digital certificate from [RSA Security](#).
- Netscape Server software runs on a variety of Unix platforms but can be downloaded for the Test Drive using Unix or PC operating systems. **Windows NT and BSD/OS versions are now available.**

If you meet these requirements and have read and agree with the licensing terms of the Test Drive program, please continue on your Server [Test Drive](#).

Find out more about Netscape at info@netscape.com, or call 415/528-2555.

This User ID and Password are required to enable the server download.

Thank you for your participation in the Netscape Server Test Drive Program.

SERVER TEST DRIVE

NETSCAPE SERVER TEST DRIVE LICENSE AGREEMENT

GRANT. Subject to the provisions contained herein, Netscape Communications Corporation ("Netscape") hereby grants to you a non-exclusive license to use the accompanying proprietary software product ("Software") for a period of sixty (60) days from the date you downloaded the Software. You may run multiple instances of the Software on a single computer system. If the Software contains header files, then Netscape also grants you a license to copy and use the header files solely to create and distribute programs to interface with the Netscape Server Application Program Interface. You may not modify the header files.

FEES. Beginning on the sixty-first day after you download the Software, a license fee is required for each central processing unit ("CPU") contained in your computer system. If your computer system contains a multiprocessor configuration or, if after you have received a single CPU Software license, you decide to add CPUs to your computer system, you must upgrade your Software license to a multiple CPU Software license, and pay the applicable license fee(s) associated with such upgrade. If the Software is transferred from one computer system to another, additional fees may be due.

ENCRYPTION. If the Software is the Netscape Commerce Server, then you must obtain a signed digital certificate from a certification authority in order to utilize its cryptographic features. A certification authority may charge additional fees for certification services. Following successful installation of a digital certificate, your use of the Software's cryptographic features will be enabled. You are responsible for maintaining the security of the environment in which the Software is used and the integrity of the private key file used with the Software.

RESTRICTED USE. The Software is protected by the copyright laws of the United States and international copyright treaties. You may not copy the Software, except for backup or archival purposes. Any such copy shall be subject to this Agreement and shall contain all of Netscape's notices regarding proprietary rights as contained in the Software Netscape originally provided to you. If you receive your first copy of the Software electronically and a second copy on media, the second copy may be used only for backup and archive purposes. This license does not grant you any right to any enhancement or update to the Software. Enhancements and updates, if available, may be obtained at Netscape's then current standard pricing, terms, and conditions. You may not lend, rent, lease or otherwise transfer the Software.

TITLE. Title, ownership rights, and intellectual property rights in the Software shall remain in Netscape and/or its suppliers. This Agreement does not include the right to sublicense the Software and may not be assigned (by operation of law or otherwise) without the prior written consent of Netscape. You agree not to attempt to decipher, decompile or disassemble the Software or develop derivative works of the Software or knowingly allow others to do so, except to the extent applicable laws specifically prohibit such restriction. You may not modify or create derivative works of the Software.

CONTENT. Title, ownership rights, and intellectual property rights in and to the content accessed through the Software is the property of the applicable content owner and may be protected by applicable copyright or other law. This License gives you no rights to such content.

DISCLAIMER OF WARRANTY. Since the Software is provided free of charge, the Software is provided on an "AS IS" basis, without warranty of any kind, including without limitation the warranties of merchantability, fitness for a particular purpose and non-infringement. The entire risk as to the quality and performance of the Software is borne by you. Should the Software prove defective, you and not Netscape assume the entire cost of any service and repair. In addition, the security mechanism implemented by the Software has inherent limitations, and you must determine that the Software sufficiently meets your requirements. This disclaimer of warranty constitutes an essential part of the agreement. SOME STATES DO

NOT ALLOW EXCLUSIONS OF AN IMPLIED WARRANTY, SO THIS DISCLAIMER MAY NOT APPLY TO YOU AND YOU MAY HAVE OTHER LEGAL RIGHTS THAT VARY FROM STATE TO STATE OR BY JURISDICTION.

LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, TORT, CONTRACT, OR OTHERWISE, SHALL NETSCAPE OR ITS SUPPLIERS OR RESELLERS BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES. IN NO EVENT WILL NETSCAPE BE LIABLE FOR ANY DAMAGES IN EXCESS OF NETSCAPE'S LIST PRICE FOR A LICENSE TO THE SOFTWARE, EVEN IF NETSCAPE SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY OTHER PARTY. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. FURTHERMORE, SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION AND EXCLUSION MAY NOT APPLY TO YOU.

EXPORT. You may not download or otherwise export or reexport the Software or any underlying information or technology except in full compliance with all United States and other applicable laws and regulations as follows:

None of the Software or underlying information or technology may be downloaded or otherwise exported or reexported (i) into (or to a national or resident of) Cuba, Iraq, Libya, Yugoslavia, North Korea, Iran, Syria or any other country to which the U.S. has embargoed goods; or (ii) to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Commerce Department's Table of Deny Orders. By downloading or using the Software, you are agreeing to the foregoing and you are representing and warranting that you are not located in, under the control of, or a national or resident of any such country or on any such list.

In addition, if the licensed Software is identified as a not-for-export product (for example, on the box, media or in the installation process), then the following applies: EXCEPT FOR EXPORT TO CANADA FOR USE IN CANADA BY CANADIAN CITIZENS, THE SOFTWARE AND ANY UNDERLYING TECHNOLOGY MAY NOT BE EXPORTED OUTSIDE THE UNITED STATES OR TO ANY FOREIGN ENTITY OR "FOREIGN PERSON" AS DEFINED BY U.S. GOVERNMENT REGULATIONS, INCLUDING WITHOUT LIMITATION, ANYONE WHO IS NOT A CITIZEN, NATIONAL OR LAWFUL PERMANENT RESIDENT OF THE UNITED STATES. BY DOWNLOADING OR USING THE SOFTWARE, YOU ARE AGREEING TO THE FOREGOING AND YOU ARE WARRANTING THAT YOU ARE NOT A "FOREIGN PERSON" OR UNDER THE CONTROL OF A FOREIGN PERSON.

TERMINATION. This Agreement terminates sixty days after you downloaded the Software. In addition, either party may terminate this Agreement immediately in the event of default by the other party. Upon any termination of this Agreement, you shall immediately discontinue the use of the Software and destroy all copies of the Software.

MISCELLANEOUS. This Agreement represents the complete and exclusive statement of the agreements concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable, and such decision shall not affect the enforceability (i) of such provision under other circumstances or (ii) of the remaining provisions hereof under all circumstances. Headings shall not be considered in interpreting this Agreement. This Agreement shall be governed by and construed under California law as such law applies to agreements between California residents entered into and to be performed entirely within California, except as governed by Federal law.

U.S. GOVERNMENT RESTRICTED RIGHTS. Use, duplication or disclosure by the Government is subject to restrictions set forth in subparagraphs (a) through (d) of the Commercial Computer-Restricted Rights clause at FAR 52.227-19 when applicable, or in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013, and in similar clauses in the NASA FAR Supplement.

Contractor/manufacture is Netscape Communications Corporation, 501 East Middlefield Road, Mountain View, CA 94043.

I agree with the terms of the license agreement.

I do not agree with the terms of the license agreement.

MIRROR
SITE
APPLICATION
</H2>

</CENTER>

To be considered as an ftp mirror site for Netscape Navigator, please fill out the following application - the only requirement is that the server be maintained by an educational institution. Netscape Communications cannot offer any assistance in configuring or maintaining your ftp site. You can also return to our
mirror sites list.<P>

<HR SIZE=4><P>

<FORM ACTION="http://www1.netscape.com/cgi-bin/mirror.cgi" METHOD="POST">

<PRE>

Contact Person: <INPUT NAME="contact" SIZE=40>

E-mail Address: <INPUT NAME="email" SIZE=40>

Country: <INPUT NAME="country" SIZE=40>

FTP Site URL (please give full pathname)

<INPUT NAME="url" VALUE="ftp://" SIZE=56>

Is the ftp server you have listed above maintained
by an educational institute?

<INPUT TYPE="radio" NAME="edu" VALUE="y"> Yes

<INPUT TYPE="radio" NAME="edu" VALUE="n"> No
